(f)—Rules for the guidance of public vaccinators and others in all matters connected with the working of the Act.

A.—Instructions for the guidance of public vaccinators under the provisions of Act V (B.C.) of 1880 :—

1. According to the provisions of this Act, the parent or guardian of every child born in any place in which the Act is in force shall, within one year after the birth of such child; and the parent or guardian of every unprotected child under the age of 14 years brought to reside, whether temporarily or permanently in any such place, within six months after such child's arrival at such place, or if the child be at the time of its arrival less than one year old, within one year and three months after its birth, and the parent or guardian of every unprotected child living in any such place at the date of this Act coming into force, and whose age at such date exceeds one year, but does not exceed fourteen years, shall, within six months from the said date, take it, or cause it to be taken to a public vaccine station to be vaccinated, or shall, within such time as aforesaid, cause it to be vaccinated by some public vaccinator.

2. Whenever a public vaccinator finds that a child, who ought to have been vaccinated according to the above provisions, remains unprotected, he shall ask the parent or guardian of such child to have it forthwith vaccinated, and explain to him the liabilities he will incur if he declines to do so; and if the parent or guardian of such unprotected child does not comply with the vaccinator's requisition, the latter shall at once bring the matter to the notice of the Civil Surgeon or other principal Civil or Military Medical Officer of the district or cantonment in order that legal proceedings may be taken against the parent or guardian of such unprotected child.

8. Public vaccinators must be very careful to supply the Civil Surgeon or other principal Civil or Military Medical Officer of the district or Cantonment with correct information, for if they fail to prove their statements before the Court, they will be liable to pay any damages which the Magistrate may order for the unnecessary trouble of the person whom they have caused to be prosecuted.

4. Whenever a public vaccinator finds that a person whose age exceeds 14* years is still unprotected, he shall ask such unprotected person to get himself forthwith vaccinated; and in the event of the latter declining to do so, the public vaccinator shall bring the circumstance to the notice of the Civil Surgeon or other principal Civil or Military Medical Officer, in order that the said unprotected person may be served with a notice in form of Schedule (D) annexed to the Act, requiring him, within fifteen days after the service of the same, to submit himself to a public vaccinator to be vaccinated.

5. Vaccinators should endeavour to ascertain—

(a) Whether children born in any place in which the Act is in force have had their births registered at the police station of the section, and been served with notices. Information ought at once to be given to the Registrar in cases in which this duty has been neglected.

(b) Whether any child under 14 years of age, not protected by vaccination, inoculation, or small-pox, has been brought to reside in any place in which the Act is in force. In such case also information ought to be given at the police station in order that a notice may be served.

If there be a failure of one or more points, they should be careful to repeat vaccination at those points, and enter the fact of their having done so in the remark column of the vaccine register. The vaccinators shall again direct the parent or guardian to bring the child once more on the seventh or eighth day, that they may ascertain and enter in their register the final result of the operation.

This certificate shall remain in force for three months, but shall be renewable for successive periods of three months until the vaccinator shall deem the child to be in a fit state for vaccination, when the child shall, with all reasonable despatch, be vaccinated, and a certificate of successful vaccination given in the form of Schedule (C) if warranted by the result.

cases of vaccination in the stations. No fee is to be charged for inspection and for granting certificates.

16. Public vaccinators are to grant printed receipts for amounts paid to them as fees.

Receipts for fees to be given to the parent or guardian, and the amount collected should be deposited at the office of the Civil Surgeon, &c., every week.

Punishment for misappropriation of fees.

These amounts are to be deposited at the office of the Civil Surgeon or other principal Civil or Military Medical Officer every Saturday, or oftener if that officer so orders. The vaccinators are warned not to misappropriate any portion of the fees to themselves, for if they do so they are liable not only to be dismissed from the department, but also to be criminally prosecuted.

17. To ensure successful vaccination, the following cardinal points are to be remem-

bered by every vaccinator—viz. good virus, a clean lancet, and the healthy constitution of the person to be vaccinated

Vaccinators should use none but the best virus; they should remember that vaccination with bad virus is worse than no vaccination; for it not only does not protect

the person from attack of small-pox, but brings discredit on both the vaccinator and vaccination. The vaccinators should not only use good virus, but take it from those persons only who are free from constitutional diseases, especially syphilis. Lymph should never be taken from a child who has an eruption on his skin, lumps about the anus or genital organs, bad teeth, or a sore throat or cold. In fact, none but perfectly healthy children should be used as subjects for conveyance of lymph. A clean lancet should invariably be used; when a foul lancet is used, it produces an amount of irritation in the vesicles which renders success doubtful. In ordinary times persons in good health are only to be vaccinated, but in times of epidemic every unprotected person, whether in sound health or otherwise, should be vaccinated. There is no fear in

vaccinating pregnant women.

18. In cases of good and successful vaccination, the following phenomena are observed in the places where the virus is inserted:—No change takes place until the third day, when the points of insertion of the virus appear like red spots or mosquito bites. On the fourth day these spots look like little pimples. On the fifth and sixth days the pimples enlarge into vesicles and contain clear lymph. On the seventh day the vesicles are fully developed. On the eighth day areolæ form around the vesicles. There is sympathetic fever from this day. On the ninth day the contents of the vesicles become perfectly yellow, and the surrounding inflammation becomes more intense. After the tenth day a crust gradually forms, brownish-black in colour and of considerable thickness, and should fall off from the 18th to the 20th day, or two days earlier in the hot season. It should leave a well-depressed cicatrix, with marked edges and floor lined and pitted.

The period at which the lymph is to be taken.

in the hot and rainy seasons.

20. In taking lymph the vesicles are to be punctured from the top, and not from the side. If the vesicles be punctured at the side, the inner septa of the vesicles would prevent the flowing of the lymph into the seat of puncture. The upper surface should not be scraped off. It should only be punctured, and if the lancet be placed flatly an abundance of lymph will flow on it.

Manner of taking the lymph.

The lymph thus taken on the point of the lancet is to be inserted in at least four different places, two on each arm, one above and the other below the insertion of the deltoid muscles, from an inch to an inch and a half apart from each other. The virus is to be inserted below the scarf or upper skin, but not deep enough to draw blood. Three such punctures are to be made in each place thus.

Manner of inserting the lymph.

21. The vaccinators must be kind and courteous towards the people that come to the public vaccine stations to have their children vaccinated. The people from their ignorance of the vaccine disease will ask many useless and tedious questions of the vaccinators, but the latter should not get annoyed at this. They should particularly explain everything which the parent or guardian of vaccinated children may want to know. While vaccinating at private houses, they should be equally kind and courteous in their manners, and although the law does not prohibit their taking any reward or present from persons able and willing to pay, they should make no demands.

B.—Instructions to Registrar—

1. The Bengal Vaccination Act, 1880 (Act V of 1880), requires of Registrars of Births the following duties connected with compulsory vaccination, in addition to those duties relating to the registration of births and deaths which the law imposes upon them:—

2. On the registration of the birth of a child, the Registrar shall deliver to the person giving information of such birth a printed notice in the form of Schedule E appended to the Act.

Section 18.

3. The Act further requires the parents and guardians of children under 14 years of age not born, but brought to reside, whether temporarily or permanently, in any place in which the Act is in force, to have them vaccinated within six months of arrival, or if at the time of arrival they are below one year of age, within 15 months of birth. On such cases coming to the knowledge of Registrars, a notice should be served in Schedule E, altered according to circumstances. Such cases should be included in the register of vaccination, column 4 being left blank.

4. These notices will be issued to Registrars in the form of a book, each notice having a counterfoil which will, when filled in, constitute the minutes of the notices required by section 20 of the Act.

5. Vaccinators are directed by the Act when a person or child is successfully vaccinated, to transmit to the Registrar a duplicate copy of the certificate (Schedule C), the original of which has been handed to the parent, or guardian or person. Similarly, when the vaccinator considers it advisable to postpone vaccination on account of ill-health or unsuitness from any other cause, a certificate to that effect (Schedule A) is given to the parent, or guardian, or person and a duplicate thereof sent to the Registrar; and when a person or child is found insusceptible of vaccination, a certificate (Schedule B) is given, and a duplicate sent to the Registrar. These duplicate certificates (schedules A, B, and C) of

postponed, unsuccessful, and successful vaccination should be filed in separate bundles, and the information conveyed by them entered in the proper columns of the registers.

6. A register of vaccination shall be kept in the following form, of which columns 1, 2, 3, 4, and 5 will be filled up on issue of the notice (Schedule E), and the remaining columns on receipt of the duplicate

certificate mentioned in the last paragraph:—

------------	----------------	----------------	------------------------------------	----------------------------	---	---	-------------------------

7. An additional column will be in future added to the ordinary "Register of Births" in which an entry will be made referring to the "Number in the Vaccination Register." Thus these two registers—the "Register of Births" and the "Vaccination Register"—will contain references to each other, and no difficulty can be experienced in ascertaining whether a certificate has been received regarding the vaccination of any child whose birth has been registered.

Section 22.

8. When a certificate has been received of the postponement of vaccination (Schedule A), an entry should be made in the special "Register of postponed vaccination" (Schedule F) prescribed by the Act. Care should be taken that a child, regarding whom a certificate of this kind is received, is eventually vaccinated, and unless a renewed certificate of postponement has been received, an entry should be made of the name in the return mentioned in the next paragraph.

9. As soon after the first of every month as possible, a return will be forwarded to the Civil Surgeon or other Principal Civil or Military Medical Officer in the following form, showing the cases in which notice has been given or certificate of postponement has been received, and the period mentioned in the notice or certificate of postponement has expired without receipt of a certificate of successful vaccination or insusceptibility (Schedule B or C). A case once returned in this form need not be entered again, except in the instance of a fresh postponement:—

Return of cases in which notice of vaccination has been served, but certificate has not been received for the month of

Name of child.	Name of parent or guardian.	Residence.	Date of issue of notice.
----------------	-----------------------------	------------	--------------------------

10. It is obviously desirable, for the purpose of ensuring that every child born in any place in which the Act is in force shall be vaccinated, that every endeavour should be made to render the registration of births as perfect as possible. Every endeavour should therefore be made to ascertain and cause the registration of every birth occurring in any place in which the Act is in force.

CRIMINAL.

No. 8, dated the 18th April 1884.

5. For clause (e) of rule 14, chapter VI, pages 114, 115, Criminal Rules and Orders (1883), substitute the following :—

(e.) [*Depositions, &c., to be translated—C. O. No. 4 of 28th February 1844.*—In Sessions cases, every vernacular (1) document, (2) deposition, or (3) examination of an accused person, admitted in evidence at the trial, shall be translated into English; and a copy of such translation fairly written out shall be incorporated in the record. The translation of more than one document, deposition, or examination shall not be written on one sheet of paper.

After the words "incorporated in the record" in (revised) clause (e), rule 14, chapter VI, page 114, Criminal Rules and Orders (1883), insert the following :—

"Provided that, when a vernacular document, the contents of which are not relevant, is used in evidence for a limited purpose, such as to prove a signature, or handwriting, or the nature of writing materials, or the like, it shall not be necessary to make an English translation of the contents of such document."

No. 9, dated the 23rd April 1884.

19. [*Chapter XXV C. C. P.—Evidence to be recorded legibly—C. A. No. 2 of 13th August 1862.*—(a). Difficulty having been frequently experienced in reading the evidence of witnesses, the attention of all Criminal officers is called to the necessity of carefully writing such evidence in a legible manner.

To Chapter VI, Section 19 (a), page 116 of the Criminal Rules and Orders, add after the words "legible manner"—

"Depositions should be written on one side of the paper only, a margin of one-fourth of the sheet being left blank."

General letter No. 3, dated Calcutta, the 23rd April 1884.

From—C. S. BAYLEY, Esq., Officiating Registrar, High Court,
To—All Sessions Judges and Magistrates in Bengal and Assam.

As considerable inconvenience in reading the records of criminal cases has been found to result from the practice of recording evidence on both sides of the paper, I am directed to request that in future all depositions may be taken down on one side of the paper only. A margin of one-fourth of the sheet should be kept blank. The Superintendent of Stationery will be directed, when next supplying paper for depositions to Sessions Judges and Magistrates, to furnish a certain proportion of blank half-sheets with a ruled margin. These half-sheets should be used to finish any deposition the whole of which cannot be written upon the paper with a printed heading on which it has been commenced.

General letter No. 5, dated Calcutta, the 18th April 1884.

From—C. S. BAYLEY, Esq., Officiating Registrar, High Court,
To—All District and Sessions Judges and District Magistrates in Bengal and Assam.

The Court having reason to suppose that an impression prevails with some officers that the term "recent legislation" used in the instructions noted on the margin regarding the preparation of annual reports on the Administration of Civil and Criminal Justice is limited to the legislation of the year with which the report is concerned, I am directed to state that no such limitation was intended. The effect of the legislation of any particular year can very rarely be observed before the close of that year. The term was therefore intended to embrace the legislation of comparatively recent years, the results of which may have become observable during the year under report.

General letter No. 6, dated Calcutta, the 21st April 1884.

From—C. S. BAYLEY, Esq., Officiating Registrar, High Court,
To—All District Judges in Bengal and Assam.

I am directed to inform you that, in the case of notices prescribed by Act VIII (B.C.) of 1869, Act XL of 1858, Act XXVII of 1860, Act V of 1881, and other Acts which contain no express provisions as to the manner in which the notices thereby directed are to be served or published, the mode of service or publication is, subject to the provisions of section 647 of the Code of Civil Procedure, left to the discretion of the Judge. As a matter of convenience, however, it is inexpedient that any practice which is established in any particular district should be disturbed without good reason.

2. In all cases in which more than one copy of a notice has to be affixed to court-houses or offices situated at the same station, one fee only should be charged for its issue, but a separate fee may be charged for any copy that has to be posted in any other locality.

EDUCATIONAL NOTICES.

Increase in the number of Junior and Middle Scholarships to be awarded at the Examinations of 1885.

THE University has altered the time of holding the Entrance Examination from December to April, and the sessions of colleges will henceforward begin in June instead of in January. The time of holding the middle scholarship examinations has also been altered from October to March, and high schools, in which those scholarships are tenable, will henceforward re-open in June. These changes make it probable that a much larger number of candidates than usual will present themselves at the Entrance and middle examinations of 1885, including many who would otherwise have waited for the examinations next following. The Government of Bengal has consequently sanctioned a proposal to increase the number of junior scholarships to be awarded at the Entrance examination of 1885 by one-third, and the number of middle scholarships by one-half. These scholarships, and all awarded in subsequent years, will, as hitherto, be tenable for 24 months; but the stipend will henceforward be payable from the beginning of the session, generally in June.

2. The present holders of junior scholarships will be allowed to read free of tuition fees for the time that will elapse between the expiration of their scholarships and the close of the extended session. The free-scholarships awarded to middle scholars after the expiry of their stipends will be similarly extended.

The 23rd May 1884.

A. W. CROFT, Director of Public Instruction.

APPLICATIONS for admission to the Government Boarding School at Kurseong for European children should be made to the Head Master before the 30th November in each year. The applications will be registered; and should their number exceed the number of anticipated vacancies in the following session, the admissions will be distributed to the different departments of Government in proportion to the number of applicants from each. The children of persons not in the service of Government will only be admissible to the school in case of vacancies still remaining after the applications of Government servants have been met.

A. W. CROFT, Director of Public Instruction.

Books in Nagri, and in any other type than the above, will not be selected for use in the Primary Schools. No effort should be spared to have the books printed in clear type and free from misprints.

Increase in the number of Junior and Middle Scholarships to be awarded at the Examinations of 1885.

THE University has altered the time of holding the Entrance Examination from December to April, and the sessions of colleges will henceforward begin in June instead of in January. The time of holding the middle scholarship examinations has also been altered from October to March, and high schools, in which those scholarships are tenable, will henceforward re-open in June. These changes make it probable that a much larger number of candidates than usual will present themselves at the Entrance and middle examinations of 1885, including many who would otherwise have waited for the examinations next following. The Government of Bengal has consequently sanctioned a proposal to increase the number of junior scholarships to be awarded at the Entrance examination of 1885 by one-third, and the number of middle scholarships by one-half. These scholarships, and all awarded in subsequent years, will, as hitherto, be tenable for 24 months; but the stipend will henceforward be payable from the beginning of the session, generally in June.

2. The present holders of junior scholarships will be allowed to read free of tuition fees for the time that will elapse between the expiration of their scholarships and the close of the extended session. The free-scholarships awarded to middle scholars after the expiry of their stipends will be similarly extended.

The 22nd May 1884.

Increase in the number of Junior and Middle Scholarships to be awarded at the Examinations of 1885.

THE University has altered the time of holding the Entrance Examination from December to April, and the sessions of colleges will henceforward begin in June instead of in January. The time of holding the middle scholarship examinations has also been altered from October to March, and high schools, in which those scholarships are tenable, will henceforward re-open in June. These changes make it probable that a much larger number of candidates than usual will present themselves at the Entrance and middle examinations of 1885, including many who would otherwise have waited for the examinations next following. The Government of Bengal has consequently sanctioned a proposal to increase the number of junior scholarships to be awarded at the Entrance examination of 1885 by one-third, and the number of middle scholarships by one-half. These scholarships, and all awarded in subsequent years, will, as hitherto, be tenable for 24 months; but the stipend will henceforward be payable from the beginning of the session, generally in June.

2. The present holders of junior scholarships will be allowed to read free of tuition fees for the time that will elapse between the expiration of their scholarships and the close of the extended session. The free-scholarships awarded to middle scholars after the expiry of their stipends will be similarly extended.

The 23rd May 1884.

A. W. CROFT, *Director of Public Instruction.*

THE Calcutta Medical College Session 1884-85 will commence on the 16th June next.

2. Students who may be desirous of commencing their studies are requested to apply to the Principal between the hours of 11 A.M. and 4 P.M. on or before the 15th June next.

Ten (10) free presentations will then be awarded. These are given to students according to their relative position in the University B.A., B.L., and P.A. Examinations, preference being given to those who have passed the highest examination.

3. No person shall be enrolled on the list of regular students of the College who has not previously passed the First Arts Examination of the Calcutta University, or some one of the preliminary Arts Examination of the United Kingdom recognized by the British General Medical Council.

4. All regular students of the College are required to pay Rs. 15 on entrance, Rs. 30 for the summer session on the 15th June, and Rs. 30 for the winter session in November of each year.

5. Students who have failed to pass, and who, under the regulations of the University, are required to attend a further course of lectures and of hospital practice before being allowed to present themselves again for examination, will pay for such further course an annual fee of Rs. 45 in two instalments of Rs. 30 and Rs. 15, payable at the beginning of the summer and winter sessions respectively.

6. Any regular student of the College may, with the permission of the Principal and the Professors of the subject, attend courses of lectures or departments of hospital practice outside and in addition to the full curriculum for the year, and he shall be entitled to certificates of attendance at such extra lectures, if the Professor is satisfied that he has really studied the subject. The fees payable in advance for such additional courses are the following—

	Rs.
For a single course of lectures on each subject ...	40
For six months' attendance in each department of hospital practice ...	60

7. Any regular student who leaves the College before completing his University course with the object of continuing his studies at a Medical School in Europe may receive certificates of attendance at lectures on payment of fees at the rates fixed in the foregoing rule. But in calculating the sum to be so paid, the amount of the fees already paid by him as a regular student, or, in the case of a free student, the amount which would have been paid by him had he been a paying student, shall be deducted.

8. Any person not being a regular student of the College who may be desirous of attending any course of lectures or any department of hospital practice may do so with the permission of the Principal and the Professor of the subject, on payment, in advance, of fees at the rates fixed in rule 6.

If such student has passed the Entrance Examination of the University, he may receive certificates of attendance at lectures, provided the Professors are satisfied that he has attended the full course of lectures, and has mastered the subject taught.

A student who has not passed the Entrance Examination will be entitled to no certificates of any kind.

9. College scholarships, prizes, and certificates of honour are open for competition only by regular students of the College and Hospital apprentice class.

10. No fees are payable by the holders of the Calcutta Medical College scholarships.

The holders of the Doorga Charan Laha and all other scholarships will be required to pay fees as a regular student. These scholars may pay their fees in advance, or have their scholarship money deducted till the full amount is received.

11. Any student holding a Medical College scholarship will be permitted to draw the stipend of the said scholarship at any recognized Medical School in the United Kingdom, provided he furnishes from the head of such school a certificate of good conduct and diligent prosecution of his studies.

12. The offices of Class Assistant, Clinical Clerk, Dressers, &c., can be held only by students whose names are on the rolls of the college.

From the end of Nullooparra lane it follows the Circular Garden Reach road or a distance of more or less 150 feet, and then again turns south skirting the western boundary of Bhokylas till it meets the Hurrobass road. The boundary line then runs east on the Hurrobass road as far as Bhokylas road, which it follows to the junction of that road with the Budge Budge road. From this point the boundary is a straight line to a point on the west side of Diamond Harbour road 700 feet to the north of its junction with the Doorgapore road. The line then runs straight from this point to the junction of the Moyerpore road with the Moyerpore lane, and then follows the south side of Moyerpore lane to Tolly's Nullah. The boundary line then follows the west bank of Tolly's Nullah for a length of 1 000 feet when it turns west in a straight line to the junction of the Tollyrunga and Shapore roads. The boundary then follows the Shapore road, Goragatchee road, Taratollah road, and Sonai third lane, to the junction of the latter with the Garden Reach Circular road. At the Circular Garden Reach road the boundary line again turns to the east and follows this road as far as Meethapookur road, where it turns north along the Meethapookur road to the north-west corner of Meethapookur tank. From this point to Garden Reach road the boundary is the west bank of Moteejheel tank.

HIGH COURT NOTICE.

Circular order issued by authority of the High Court of Judicature at Fort William in Bengal.

CIVIL.

No. 4, dated the 22nd May 1884.

THE practice which apparently obtains in some districts of showing poundage fees* as civil deposits in the accounts is incorrect. Money realized in cash in cases in which the decree-holder purchases and sets off the amount of his decree against his purchase-money, in whole or in part, under the arrangement contemplated in Chapter 1, Rule 8, Clauses (a), (b), (c), (d), page 13, Civil Rules and Orders, should be held, not as poundage fees, but as earnest money paid in by the purchasing decree-holder, out of which the poundage fees can be realized on confirmation of sale.

* Vide Note (f), Article 6, Parts II, III, and IV of Rule 8, Chapter IV, pages 225, &c., Civil Rules and Orders.

General Letter No. 7, dated Calcutta, the 8th May 1884.

From—C. S. BAYLEY, Esq., Officiating Registrar,
To—All District Judges in Bengal and Assam.

As the Order Sheet now contains every original order made in a suit or case from its first institution to its final determination (see clause (n), Rule 1, No. 49, Chapter V, page 304 of the General Rules and Circular Orders, Civil Side), the Court consider it unnecessary that such orders should be entered at length a second time in the Diary. This double record creates additional work without any adequate advantage; while (regard being had to the strength of the establishments of the Civil Courts and the indispensable duties which they have to perform) it is very desirable that no unnecessary labour should be imposed upon them.

2. The Judges are at the same time strongly impressed with the belief that some waste of judicial power and avoidable inconvenience to suitors and their witnesses are caused in many Courts by want of system and foresight in fixing the dates for the hearing of cases. They are satisfied that, if Judicial Officers of all grades would give some personal attention to the arrangement of their files, their own work would be facilitated by the economy of system; suitors would be saved the inconvenience and expense of constant adjournments; and witnesses, being examined and discharged in the majority of instances on the dates for which they were summoned, would respect the process of the Civil Courts without necessity for the adoption of punitive measures. The Court are accordingly pleased to cancel clauses (b), (c), (d), (e), and (f) of Rule 43, page 295 of the General Rules and Circular Orders (Civil), and to issue the following instructions in lieu thereof:—

- (b) The Diary shall be kept in the form hereunto annexed, or as nearly thereto as may be convenient. It shall show the name of the Judge or Judicial Officer; the hour at which he took his seat; the number of petitions filed before him in Court; the manner in which the cases fixed for the day have been disposed of; and the hour at which the Court rose. It shall be signed at the end by the Judge before he leaves Court.
- (c) The cases fixed for the day shall be entered in advance under the heads shown in the form immediately upon a date or adjourned date being fixed (1) for their final disposal at the first hearing; or (2) for settlement of issues; or (3) for trial upon adjournment after settlement of issues. This portion of the Diary will therefore be filled in many days before the date, the actual proceedings of which the Diary

is intended to show. Upon that date it will only remain to note the number of petitions received, and to make the brief entries in column 2. These entries should be made by the Judge himself as each case is disposed of. The entry of the cases in advance can be made by the clerk who attends the Bench; and one leaf or two pages should be appropriated to each working day, holidays being excluded. All entries should be neatly made without erasures. The Diary will thus serve as a Cause List. It should lie upon the table in Court during Court hours, and the Vakeels should be allowed access to it in order to ascertain the dates fixed for the hearing of their cases.

- (d) The Court are further pleased to direct that a *Register of Petitions* be maintained in the accompanying form. This Register may be kept in the vernacular, and it requires no explanation. The serial number of each petition should be written on the face of it at the top, in order to facilitate reference to the Register.
- (e) The majority of petitions can be disposed of by an order passed in Court as soon as they are filed. Where a reference to the record or to other papers is necessary before an order can be made, they should be brought up with such record or papers on the following open day, and orders should then be passed in Court. All orders when entered in the Order Sheet must be signed by the parties or their Pleaders.
- (f) It shall be the duty of the District Judge or Judicial Commissioner upon every inspection of a Subordinate Court to satisfy himself and report to the High Court whether the *Diary* and *Register of Petitions* have been properly maintained in accordance with these instructions. A glance at column 4 of the *Register of Petitions* will show at once whether applications in suits have been promptly dealt with. Similarly, a glance at column 2 of the *Diary* will show whether cases have been adjourned too frequently or to too distant dates. The same column will enable the course of any suit to be traced from its first institution to its final disposal. The *Diary* itself will show whether the Subordinate Judge or Munsif has exercised proper care and judgment in arranging the work of each day.

General Letter No. 8, dated Calcutta, the 8th May 1884.

From—C. S. BAYLEY, Esq., Officiating Registrar,
To—All District Judges in Bengal and Assam.

THE Judges have frequently observed that applications for summonses to witnesses are dealt with by a special order of the Subordinate Judge or Munsif, and that such summonses are occasionally refused on the ground that they have not been applied for in sufficient time to enable the witnesses to be present at the hearing. The Court are of opinion that no Judicial Officer should take upon himself to refuse a summons on this ground, but that summonses should be issued by the Nazir without any special order of the Judge with all convenient despatch upon payment of the requisite fees. If witnesses are absent upon the day of trial, the Judge must then determine whether there has been want of due diligence fairly chargeable to the parties concerned.

General Letter No. 9, dated Calcutta, the 13th May 1884.

From—C. S. BAYLEY, Esq., Officiating Registrar,
To—All District and Sessions Judges and Magistrates in Bengal and Assam.

WITH a view to the detection of delays in the issue of copies of documents in which folios are filed subsequently to the original application, I am directed to request that the heading of column 5 of the Register* of applications for copies may be altered by hand from "Filed afterwards" to "Number of folios filed afterwards with date of filing."

2. The Superintendent of Stationery has been directed to make the necessary alteration in the next issue of the form.

To be substituted for—

General Letter No. 3, dated Calcutta, the 23rd April 1884.

From—C. S. BAYLEY, Esq., Officiating Registrar,
To—All Sessions Judges and Magistrates in Bengal and Assam.

As considerable inconvenience in reading the records of criminal cases has been found to result from the practice of recording evidence on both sides of the paper, I am directed to request that in future all depositions may be taken down on one side of the

paper only. A margin of one-fourth of the sheet should be kept blank. The Superintendent of Stationery will be directed, when next supplying paper for depositions to Session, Judges and Magistrates, to furnish a certain proportion of blank half-sheets uniform in size and quality with the printed form of deposition, the margin of which should be folded down. These half-sheets should be used to finish any deposition the whole of which cannot be written upon the paper with a printed heading on which it has been commenced.

Sheriff's Office, the 11th June 1884.

NOTICE is hereby given that the fourth Criminal Sessions of the year 1884 of the High Court of Judicature at Fort William in Bengal, for the Town of Calcutta and Factory of Fort William, and the places subordinate thereto, will be holden at the Court House, in the Town of Calcutta, on Monday, the Fourteenth day of July next, at 11 o'clock in the forenoon, and so on from day to day until the said Sessions be over. And it is hereby proclaimed that all persons who will prosecute any of the prisoners to be brought up for trial at the said Sessions be present then and there to prosecute.

NOTIFICATION.

The 12th June 1884.—The following amended rules for the medical inspection of vessels are issued for the guidance of Port Officers, Pilots and Medical Officers of Ports by the Lieutenant-Governor of Bengal, with the previous sanction of the Governor-General in Council, and they will take effect from the 1st July 1884 in the Port of Chittagong:—

I.—The master of every vessel on board of which there is, either among the passengers or crew, any case of cholera, small-pox, or other epidemic disease common in India, shall report such case or cases to the pilot or other boarding officer at the earliest opportunity; or in the absence of a pilot or other boarding officer, shall hoist a signal, which shall be, during the day, flag R of the Commercial Code at the main, and during the night two lighted lanterns, one over the other, at the fore.

II.—The Port Officer, having received information from the pilot or other boarding officer, or by signal, that any case of such disease is on board, shall communicate the information to the Health Officer of the Port.

III.—The Health Officer, as early as possible after receipt of this information, shall inspect the vessel, and more especially its sanitary condition; shall inquire into the circumstances attending the case or cases of the said disease; and shall arrange for the conveyance of all persons suffering from such disease to a hospital, unless the sick person or his friends can make adequate provision elsewhere.

VI.—Where cases have been more numerous than one or two, or when, from their occurring on pilgrim or emigrant ships, or for other special reasons, further precautions may be deemed advisable, the vessel shall anchor in the place appointed for the purpose off the outer bar of the Chittagong river, and none of the passengers shall be allowed to leave until the Health Officer has made his inspection.

III.—Immediately on the signal of such arrival being made, the Health Officer of the port shall go alongside the vessel and ascertain by enquiry from the Commander whether any person on board is then suffering, or has during the voyage suffered, from plague, yellow-fever, or some fatal epidemic not ordinarily prevalent among Indian populations; and if such officer is satisfied by such enquiry that no such case has occurred, he shall by writing under his hand, to be delivered to the commander, permit free communication between such vessel and the shore, and with other vessels and boats in the harbour.

IV.—If the Health Officer shall have reason to believe that any such case has occurred, he shall direct the commander to take the vessel to the quarantine anchorage (at Jooldia) duly appointed and notified by Government, there to remain for the space of fifteen days from the day of arrival in the harbour, or from the date of the occurrence of the latest case of illness, and shall further direct the commander to prohibit during the said fifteen days all communication, except such as is hereinafter provided for, between such vessel and the shore, or other vessels or boats in the harbour. The Health Officer may further direct the removal of so

V.—Any mails or cargo which may be brought by any vessel so arriving shall be landed under such precautions as may be deemed necessary by the Health Officer to prevent the spread of the disease.

VI.—It will be the duty of the Port Officer to facilitate the conveyance to the vessel in quarantine of all supplies of provisions, stores, and other articles required by those on board. These supplies should be placed on the boats of the vessel, to be subsequently removed by members of her crew.

2. Students who may be desirous of commencing their studies are requested to apply to the Principal between the hours of 11 A.M. and 4 P.M. on or before the 15th June next.

Ten (10) free presentations will then be awarded. These are given to students according to their relative position in the University B.A., B.L., and P.A. Examinations, preference being given to those who have passed the highest examination.

3. No person shall be enrolled on the list of regular students of the College who has not previously passed the First Arts Examination of the Calcutta University, or some one of the preliminary Arts Examination of the United Kingdom recognized by the British General Medical Council.

4. All regular students of the College are required to pay Rs. 15 on entrance, Rs. 30 for the summer session on the 15th June, and Rs. 30 for the winter session in November of each year.

5. Students who have failed to pass, and who, under the regulations of the University, are required to attend a further course of lectures and of hospital practice before being allowed to present themselves again for examination, will pay for such further course an annual fee of Rs. 45 in two instalments of Rs. 30 and Rs. 15, payable at the beginning of the summer and winter sessions respectively.

6. Any regular student of the College may, with the permission of the Principal and the Professors of the subject, attend courses of lectures or departments of hospital practice outside and in addition to the full curriculum for the year, and he shall be entitled to certificates of attendance at such extra lectures, if the Professor is satisfied that he has really studied the subject. The fees payable in advance for such additional courses are the following—

	Rs.
For a single course of lectures on each subject	40
For six months' attendance in each department of hospital practice	60

7. Any regular student who leaves the College before completing his University course with the object of continuing his studies at a Medical School in Europe may receive certificates of attendance at lectures on payment of fees at the rates fixed in the foregoing rule. But in calculating the sum to be so paid, the amount of the fees already paid by him as a regular student, or, in the case of a free student, the amount which would have been paid by him had he been a paying student, shall be deducted.

8. Any person not being a regular student of the College who may be desirous of attending any course of lectures or any department of hospital practice may do so with the permission of the Principal and the Professor of the subject, on payment, in advance, of fees at the rates fixed in rule 6.

If such student has passed the Entrance Examination of the University, he may receive certificates of attendance at lectures, provided the Professors are satisfied that he has attended the full course of lectures, and has mastered the subject taught.

A student who has not passed the Entrance Examination will be entitled to no certificates of any kind.

9. College scholarships, prizes, and certificates of honour are open for competition only to regular students of the College and Hospital apprentice class.

10. No fees are payable by the holders of the Calcutta Medical College scholarships.

The holders of the Doorga Charan Laha and all other scholarships will be required to pay fees as a regular student. These scholars may pay their fees in advance, or have their scholarship money deducted till the full amount is received.

11. Any student holding a Medical College scholarship will be permitted to draw the stipend of the said scholarship at any recognized Medical School in the United Kingdom, provided he furnishes from the head of such school a certificate of good conduct and diligent prosecution of his studies.

12. The offices of Class Assistant, Clinical Clerk, Dressers, &c., can be held only by students whose names are on the rolls of the college.

NOTIFICATION.

Fort William, the 18th January 1884.

No. 378.—With reference to Notification issued from the Financial Department, dated 22nd May 1832 (published in the *Calcutta Gazette* of 26th idem), of which the following is the text—

"Notice is hereby given that the Accountant-General has been empowered to comply at his discretion with applications from the holders of Promissory Notes of the Supreme Government residing in the interior who may desire to receive the interest accruing upon their Notes from any Mofussil Treasury. When the interest of any Note may be so made payable at a Mofussil Treasury, an order to the effect will be written across the face of the Note, and parties desiring to alter the place of payment will be required to renew the Notes in the usual manner at the Office of the Accountant-General at the Presidency."

it is hereby notified that the payment at Mofussil Treasuries of interest upon Promissory Notes of the Government of India is made subject to the following conditions; that is to say—

First.—That the person to whose, or to whose agent's, receipt payment is made is either the person in whose name the Note was originally issued, or one who derives his title from the said person by a regular chain of endorsements of the form described in para. 2 below.

Second.—That all the endorsements upon the Note, whether of transfer or of payment of interest, are clear and distinct, that there are no cross-endorsements, and that there remains room for a clear and distinct endorsement for renewal.

Third.—That the Note itself is not mutilated or torn. (Division into an upper and a lower half does not reckon as mutilation if the two halves are firmly rejoined.)

2. The form of endorsement referred to in the first condition must be one of the three following:—

(Signed) A. B.

Pay to C. D.
(Signed) A. B.

Pay to C. D. or order.
(Signed) A. B.

in which A. B. the endorser is either a personal name, without addition of official capacity or of legal status (such as administrator, &c.), or is the name or usual signature of a well-known Bank; A. B. being the holder according to the tenor of the Note and endorsements, preceding that signed by himself.

3. If the person who presents the Note for payment of interest claims in any other way or under an endorsement of any other form than that above specified, or if the endorsements are not clear and distinct, or the Note mutilated or torn, the Treasury Officer is to refuse payment of interest and to require the claimant, if he desires such payment to be continued, to take the measures prescribed in the rules for obtaining a renewed Note in his own favour.

4. It should be noted that if A. B. is, according to the tenor of Note or endorsements, holder in any other than his personal capacity, an endorsement is not legally valid if it is made in his personal capacity only, whereas, if it is made in any other capacity, the Treasury Officer must, in conformity with the present orders, require renewal to be applied for. One effect of this order therefore is to cause reference to be made to the Public Debt Office in every case of endorsement by such a holder.

1. *Scale of Provisions, Fuel and Water.*—Each ship shall be supplied with provisions, stores, &c., of fair quality, in accordance with the following scale, and in quantity sufficient for the full number of days the voyage is reckoned to occupy:—

Daily allowance to each passenger above the age of 12 years.

(Children above one year and under 12 years shall receive half rations.)—

Rice	1 lb.
Flour or ship's biscuit	4 oz.

Water,* the best available, in clean iron tanks	1 imperial gallon.

* NOTE.—A reduction is permitted of 2-7ths of the total quantity of water to be carried when the condenser is fully capable of making up the deficiency.

2. Excepting fuel and water, which shall always be found by the ship, the rest of the articles in the above scale need not be shipped for those passengers who can show that they have made their own arrangements for a full supply of such provisions for the voyage.

3. *Fresh Water Condensers.*—Each ship shall be fitted with a condenser or distilling apparatus of sufficient capacity to meet the requirements of both crew and passengers.

4. All condensers shall have a separate engine for working the circulating cold water pump, and under no circumstances is this engine to be used for any other work than feeding the steam boiler.

5. All condensers shall be fitted with filters.

6. The arrangement for discharging the circulating water from the condenser shall be such that it can be delivered into buckets or connected with a hose for the purpose of washing decks, or extinguishing fire, as well as discharging over the ship's side. A suitable hose and connection shall also be provided.

7. Boilers for condensers should be of an upright construction, but horizontal boilers may for special reasons be passed by the officer authorised to inspect the ship under Section 5 of the Act, if otherwise satisfactory.

8. Each boiler shall be furnished with a steam-gauge indexed to double the working pressure, a glass water gauge and two separate gauge cocks, one safety valve, and two mud-hole doors for the purpose of cleaning.

9. The boilers and all machinery of the condensers must be properly covered in, and any wooden bulkhead in the vicinity of the boilers must be covered with sheet lead $4\frac{1}{2}$ lbs. to the square foot and securely fastened thereto.

10. All the piping in connection with the condenser, especially the main suction and the condensed water discharge pipe, shall be laid in positions secure from accident or otherwise securely encased.

11. The inspecting officer shall satisfy himself by actual experiment that the condenser is capable of performing the work required of it.

12. A competent person, to be approved by the inspecting officer, shall be appointed to have charge of the apparatus, &c., during the voyage.

13. No certificate under Section 11 of the Act will be granted unless the condenser can yield 500 gallons of distilled water in 24 hours, and unless the whole arrangements, as detailed in Rules 5 to 12 above, are to the entire satisfaction of the inspecting officer.

17. (b) *Hospital Accommodation*.—Every ship carrying more than 100 passengers shall provide hospital accommodation for the passengers as follows:—

(a) To provide for the treatment of cases other than those referred to in clause (b) there shall be a permanent hospital set apart on the upper deck. This hospital may be fitted up either in the poop or deck house. It shall contain not more than six bunks and shall have a superficial deck area of at least 144 feet, and not less than 864 cubic feet of air space. It shall be lighted and ventilated to the satisfaction of the surveying officers, and shall be provided with a raised floor or platform at least four inches off the decks. Every permanent hospital must be made as secure as any other deck house, and the roof must be well caulked and covered with painted canvas. In all such permanent hospitals iron fittings are preferable to wood. No case of small-pox, cholera, yellow-fever or plague shall on any account be treated in the permanent hospital.

(b) To provide for the treatment of such cases of sickness as it may be considered desirable specially to separate (such as small-pox, cholera, yellow-fever or plague) and for any general outbreak of sickness when the permanent hospital accommodations become insufficient, each ship shall carry materials for the construction of a temporary hospital upon its upper deck. The part of the upper deck upon which such hospital shall be erected shall be pointed out and measured off by the surveying officers. The frame-work of the hospital may be either of iron (in pieces that can be easily fitted together) or of wooden spars or bamboos. The roof must be tented, and both that and the side walls must be made of stout canvas and be perfectly water-tight, due provision being at the same time made for ventilation. The superficial area of the floor shall be not less than 144 feet, and such floor shall be raised at least 4 inches from the deck. Sheet iron is preferable as the material of the floor.

To each ship when passengers are to be fed.

To each ship.

• All these should be specially marked for privy use.

19. (d) *Ventilation*.—The inspecting officer shall see that the ventilation of the lower hold and of the between-decks is separately provided for; that all air holes affording a means of communication between the hold and the between-decks are closed so as to shut off, as completely as possible, the escape of foul air from the bilge, or steam from the cargo, into the between-decks, that all ventilating shafts and tubes for the hold are so arranged as to act quite independently of those for the between-decks; and that a sufficient number of efficient ventilators are provided for the between-decks to afford an equable diffusion of fresh air through all parts, and so situated as to act in all weathers.

20. In the absence of hollow iron masts and other means of ventilating the hold, there shall be fitted at least four cowl-headed tubes leading from the lower hold to the open air on the upper deck.

21. Besides hatches, stern ports, and side scuttles, and exclusive of openings into the engine room, stoke holes, coal-bunkers, collision compartments, and screw tunnel, there shall be ventilating openings in the upper deck which must be capable of being kept open in all weathers, and of which the total area shall not be less than about 14 square feet to every 100 persons, and such openings shall be as equally distributed as possible, both sky-lighted air shafts and cowl-headed tubes being fitted according to the circumstances and requirements of the case.

22. Every cowl-headed tube shall be provided with a strong plug for use, if necessary, in bad weather.

23. Every ship having an iron upper deck shall have a wooden deck laid over it.

24. Each hatchway shall be provided with a large tarpaulin tent that can be spread well over it, securely fastened, so as to keep out rain and let in fresh air, and be rolled up out of the way in fine weather; and shall also be fitted with a strong iron or wooden A-shaped frame for the support of the tent.

25. Every ship shall have poop, quarter and main deck awnings complete and in good order, at least six life buoys, and four windsails.

26. (e) *Sanitary and miscellaneous regulations*.—Every ship shall be fitted with not less than two latrines sufficiently screened from public view and readily accessible, and with one additional such latrine for every hundred passengers, or part of that number, carried in excess of 100. The latrines shall be provided with not less than two seats for each 100 passengers. Each latrine shall be firmly secured in a convenient and accessible place on the upper deck, and close against the bulwarks, so that the soil-shoot of the latrine floor may lead directly out of a port or other opening and well clear of the ship's side. No latrines shall be allowed in the between-decks. Each latrine shall be divided into separate and private compartments. Each compartment not more than 2 feet square shall have a separate entrance with door, and shall be fitted with a seat, or a pair of foot-boards having a free opening or hole in the centre. Each such opening shall communicate directly with the floor beneath, common to all the openings.

The floor continued into the shoot, and having a good fall towards it, shall be made either of a continuous sheet of metal, or of wood continuously lined with sheet lead or zinc. The floors and shoots of the latrines shall be painted with coal tar, liberally laid on. There should be a troughed opening at each of the ends or sides of the latrines a little above the level of the floor, but below that of the seats or foot-boards, to enable the floors to be freely flushed with water from the outside. Every compartment shall be well ventilated by means of openings that do not interfere with privacy; and shall be sufficiently lighted at night by means of a lantern to each latrine that should be so fitted as to throw light into all the compartments of the latrine.

A proportion of such compartments, in any case not less than one, if there be any females among the passengers, shall be set apart for the exclusive use of females, such proportion corresponding, as nearly as may be, to the proportion of female to male passengers.

27. Every ship shall be provided with not less than two places for washing sufficiently screened from public view, whereof a full proportion, as prescribed in the case of latrine compartment, shall be set apart, exclusively for females. A sufficient number of hand-pumps shall also be provided for supplying sea water for purposes of ablution.

28. Every ship shall be provided with not less than two cabooses or cooking ranges on deck, properly housed and covered, to which passengers can have

ready access. The ranges shall be made of substantial plate iron, lined inside with bricks and raised at least 4 inches from the deck, with an outlet or chimney at top for the escape of smoke. Each range shall contain five or six cooking places, and an additional range shall be provided for every two hundred passengers carried in excess of one hundred. Cooking on board in the passengers' own stoves is prohibited.

Every ship shall provide caboose and boiler accommodation sufficient to cook for the total number of passengers to be fed by the ship; a corresponding reduction will then be admissible in the number of cabooses required under the rules for those who cook for themselves.

29. The crew of the ship shall not be allowed to use the cooking ranges or latrines set apart for passengers during the period passengers are on board, but shall be provided with a separate cooking range and latrine.

30. Strong ladders shall be provided for every hatchway used as such and not only as a ventilator, and as additional means for women and children to hold on by, besides hand-rails, knotted hand ropes should be fastened conveniently near the ladders.

31. Hooks for hanging the required number of lanterns shall be fixed at convenient distances apart.

32. The space to be occupied by the passengers must be clear, thoroughly clean, and dry; and nothing must be slung up or stowed away between the beams.

33. Bamboos, ropes, or strong rails shall be securely fastened fore and aft to the midship stanchions, so that the passengers may have something on which to hang their clothes or bundles, and to depend on for support when the ship rolls.

34. No timber of any kind shall be allowed on the upper deck but only necessary fittings properly secured.

ORDER—By the Government of India, Department of Finance and Commerce.**READ**—

Report by the Comptroller-General on Savings Banks in India for the year 1882-83 and its appended statements.

ORDER—Ordered that the Report (omitting paragraph 9) and its appendices be published in the *Gazette of India* for general information.

No. 115, dated 28th December 1883.

FROM—E. T. ATKINSON, Esq., Officiating Comptroller-General,**TO**—The Secy. to the Govt. of India, Dept. of Finance and Commerce.

I HAVE the honour to submit my report on Savings Banks in India for the year 1882-83.

2. I have nothing special to report, except that Post Office Savings Banks were established during this year, and transfer to them of depositors from District Savings Banks were freely permitted under Financial Department Resolution No. 1460, dated 2nd June 1882. These, however, have not occurred to any great extent, as will be seen from the subjoined statement.

Transfers from Post Office Savings Banks to District Savings Banks.	Balance which would have existed on 31st March 1883, but for transfers to Post Office Savings Banks.

350, the decrease of 12 being on account of the amalgamation of two Railway Banks with others and the closure of another, and to the reduction of nine Regimental Banks owing probably to the presence of a smaller European force. The particulars given in the margin indicate the number of District Savings Banks open in each Province, and the total number of Presidency, Railway, and Regimental Savings Banks in India.

4. In the number of accounts in the District and Railway Banks there was a net increase of 807, 8,032 having been opened and 7,225, closed during the year.

In the Presidency and Military Banks there was a decrease of 1,592 and 4,604 accounts respectively. Thus the net result of the year, exclusive of 2,020 dead accounts, was a decrease of 5,479 accounts, as will be observed from the following table:—

RESOLUTION—By the Government of India, Department of Finance and Commerce.

READ—

Financial Despatch from the Secretary of State, No. 46, dated 27th January 1881, directing that the Comptroller General be requested to prepare annually a report comparing the accounts of the last year with the Budget of that year and with the accounts of the preceding year, with explanations of any important variations, and requesting an expression of the views of the Government of India regarding the expediency of delegating the duty of making an appropriation audit to the Comptroller General or to another officer free from all administrative functions.

Resolution by the Government of India in the Financial Department, No. 1900, dated 22nd July 1881, declaring that the offices and accounts of the Controllers of Military Accounts, of the Examiners of Public Works Accounts, and of the Comptroller to the Post Office will be open to the inspection of the Comptroller General and his inspecting officers.

Despatch from the Government of India to the Secretary of State, No. 249 (Financial), dated 1st October 1881, replying to that portion of the Secretary of State's Despatch of 27th January 1881 which dealt with the question of establishing in India an independent appropriation audit to supplement the departmental audit.

Despatch from the Secretary of State, No. 103, dated 23rd March 1882, replying to the Despatch from the Government of India, dated 1st October 1881.

Despatch from the Government of India, No. 278, dated 8th September 1882, containing the final proposals of the Government of India on the subject of an annual appropriation audit.

Despatch from the Secretary of State, No. 401, dated 21st December 1882, conveying his approval of the recommendations made by the Government of India in the Despatch No. 278, dated 8th September 1882, above quoted.

RESOLUTION.—The question of the expediency of establishing in India an independent appropriation audit, to supplement the existing departmental audit, was raised by the Committee appointed in 1880, by the Secretary of State for India, to inquire into the system of military account and estimate in India. This question was connected rather with the general system of accounts in India than with that of the military accounts; but as the matter had come to the notice of the Committee, they submitted recommendations on the subject to the Secretary of State. The Committee were not unanimous in opinion, but the recommendation made in the body of their report was to the effect that the appropriation audit should be made by the Comptroller General.

As a complete audit in detail of every charge against the vouchers was effected by the local and departmental account officers, and as abstract statements of the results of this departmental audit were submitted month by month to the Comptroller General, the Committee were of opinion that the Comptroller General should carry out the appropriation audit from the materials thus supplied to him, and that he should be required to submit an annual comparison and report to the Governor General in Council.

In reply to the objection that by reason of his being entrusted with certain executive and administrative functions the Comptroller General could not be regarded as an altogether independent auditor, it was observed that, owing to the circumstances of the country, the Comptroller General did not, like the Auditor General in England, audit the accounts with vouchers, but could only exercise the functions of appropriation auditor by reviewing the results after examination of the materials received from his Sub-Accountants, and for this purpose it was considered that the office of Comptroller General as at that time established was sufficiently independent.

2. In forwarding the report of the Committee to the Government of India, the Secretary of State requested that the Comptroller General should be instructed to prepare annually a report comparing the accounts of each year with the estimates for that year and with the accounts of the preceding year, with explanations of any important variations; the report to be considered by the Government of India and forwarded with such remarks as might seem necessary to the Secretary of State for India. At the same time the Secretary of State requested an expression of the opinion of the Government of India regarding the expediency of delegating the duty of conducting the appropriation audit to the Comptroller General, or to another officer free from all administrative functions.

The recommendations which were made in the first instance by the Government of India involved the appointment of a separate and independent Auditor General with a staff of subordinate auditors at a total cost of rather more than one and a half lakhs of rupees per annum. On further consideration, however, doubts were felt regarding the applicability of the principle which regulates the appointment of an Auditor General in India.

In the United Kingdom the supplies are annually voted by Parliament, and a very jealous control over the Executive Government in the disposal of the money requires that an officer, independent of the Executive Government,

shall report to it whether the law has been in all cases observed, and the moneys distributed according to the intention of the House of Commons. In India the case is different, as the allotment of supplies is made by the Governor General in Council, and it is, primarily for his satisfaction that an appropriation audit is needed, in order that he may have brought before him in a clear and precise manner any deviations which have occurred in the expenditure of the year from the original intentions of the budget. It was evident that this object could be attained without the appointment of an officer independent of the Government of India, and without incurring the considerable expenditure involved in the appointment of a separate officer; as the report was to be made to, and for the information of, the Governor General in Council, there was no object to be gained by the appointment of an officer who would be wholly independent of the Government of India.

3. On reconsideration of the whole subject, and with reference to the wishes of Her Majesty's Secretary of State for India, the Government of India finally recommended, and the Secretary of State sanctioned, the following arrangements:—

- I.—The appropriation audit should be made by the Comptroller General, who, in order to give due prominence to his special duties of audit, should be designated Comptroller and Auditor General.
- II.—The Comptroller General should be relieved of the executive work which he performed in his capacity of Accountant General in respect of the treasuries classed under "India."
- III.—The Comptroller General should be authorized to undertake a test audit in any of the offices of Account and Audit under the Government of India, whenever he deemed it desirable to do so.
- IV.—An addition should be made to the staff of the Comptroller General to enable him to carry out the above duties.
- V.—The various Accountants General (including those of the Military and Public Works Departments) or heads of Departments of audit and account should be required to submit annually an appropriation audit report to the Auditor General, who would compile his report from the materials supplied to him and forward it to the Government of India.

4. In pursuance of these arrangements, the Governor General in Council is now pleased to formally appoint the Comptroller General to be Comptroller and Auditor General, and to direct that each Accountant General, including in the term the Military and Public Works Accountants General, and each head of a separate Audit Department, shall prepare and forward to the Comptroller and Auditor General each year an appropriation audit report of the Province or Department of which he compiles the accounts.

Two officers have already been appointed to class I of the enrolled list of the Financial Department, of whom one, under the title of Comptroller of Indian Treasuries, will have charge of the duties connected with the treasuries immediately under the Government of India, the examination and audit of the daily cash transactions of the Government with the Bank of Bengal at Calcutta, the accounts and expenditure by offices and establishments serving directly under the Government of India, and the accounts of interest of the public debt.

The second of these officers, under the title of Deputy Auditor General, and the former Inspector of Local Accounts, who will now receive the same title of Deputy Auditor General, will be employed on the duties of test audit and inspection.

5. The offices and accounts of the Controllers of Military Accounts (including their Examiners), of the Examiners of Public Works Accounts (including Telegraph), and of the Comptroller to the Post Office, have already been declared to be open to the inspection of the Comptroller General and his inspecting officers, and similar authority is now delegated to the Auditor General and his staff. The Comptroller and Auditor General, in person or by his Deputies, is not merely entitled to inspect the offices and accounts in question, but also to make a test audit of so much of the accounts of any office as he may consider necessary; and the auditing or inspecting officer is entitled to enter any branch of the office, to call for any documents, and to ask for any information he may require for the purposes of his audit or inspection, and it will be the duty of the heads of all departments to supply such information, and to afford every reasonable facility for making a test audit.

The arrangements indicated in these last paragraphs have in fact already been brought into operation, and the offices of the Controller of Military Accounts, Bengal, and of the Accountant General, Madras, have already been audited.

6. The following duties will remain with the Comptroller and Auditor General, in addition to his general duty of supervising and directing the work of the Civil Accountants General and Comptrollers:—

- (1) Compilation of the Central Accounts, both monthly and yearly.
- (2) Compilation of estimates and comparison of current facts therewith.
- (3) Appropriation audit.
- (4) Audit and inspection of all offices of Account.
- (5) Management of the Paper Currency Department.
- (6) Control of personnel of Civil Department of Account.

- (7) Resource—that is, the providing of money both by increasing the balances as a whole, and by transferring them to the points whence they are required.
- (8) Management of the Public Debt, now including Stock Notes.
- (9) Accounts of the District Savings Banks.
- (10) Adjustment of accounts of Guaranteed Railways.
- (11) Account with London and with the Colonies.
- (12) Management of Reserve Treasuries and of the Bank balances.
- (13) Central accounts and custody of securities held in trust by Government officers.
- (14) General direction of coinage and mint operations.
- (15) Verification of deposit, advance, and other debt balances.
- (16) Collection of mutual accounts of accounting officers.
- (17) Audit of such accounts as Administrator General's and other Law Officers', and Emigration Agencies of Colonies.
- (18) The Accounts of the Forest Department.
- (19) Examination of accounts of Service Funds.

ORDERED, that this Resolution be communicated to the several Local Governments and Administrations, the Comptroller General, the several Accountants General and Comptrollers, the Military Department and the Public Works Department.

Ordered also, that the Resolution be published in the *Gazette of India* for general information.

Section 4.

Insert the following as a foot-note to this Section :—

In paragraph 4 of the Home Department Resolution No 24—885-98, dated the 6th July 1883, the Government of India intimated to Local Governments and Administrations that the Secretary of State had approved of the principle to which attention was drawn in paragraph 7 of the Resolution* of the 7th September 1882, of imposing a check on the abuse of the Civil Furlough Rules by recurring grants of furlough on medical certificate, and that the best mode of effecting that object was still under consideration.

3. The Secretary of State has now decided that the Civil Furlough Rules, as they stand, appear to make sufficient provision against their frequent or general abuse, and that any present formal modification of those rules is therefore unnecessary. Officers at home on medical leave will not be permitted to return to duty without a medical certificate of fitness for duty in India. At the same time His Lordship expresses his readiness to reconsider the subject should further experience show that more stringent precautions against abuse of the rules are necessary, and is of opinion that the matter might be brought by circular to the notice of Local Governments and Heads of Departments. It is pointed out that to grant leave on urgent private affairs in consideration of the state of an officer's health is not in accordance with the spirit of the Rules. When an officer applies for repeated grants of medical leave within short intervals, the attention of the Medical Board should be drawn to his case with a view to their carefully considering the term of absence necessary for his complete recovery.

3. I am to request that in future these directions may be borne in mind. Section 4 of the Civil Leave Code gives the Local Government ample powers for regulating the grant of leave of every description.—[Circular in the Home Department, No. 22 (Public), dated 10th May 1884.]

No. 1661.—RESOLUTION—By the Government of India, Department of Finance and Commerce.

Read again the following Resolution in the Department of Finance and Commerce:—

No. 1959, dated 31st July 1873.

RESOLUTION—By the Government of India, Financial Department.

The Governor-General in Council observes that, of late, sanction has been frequently asked for immediate expenditure for which no provision has been made in the estimates of the current year.

His Excellency in Council desires to remind Local Governments and Heads of Departments that, save for exceptional reasons, such expenditure should not be proposed, and cannot be sanctioned.

Whenever, therefore, a proposition of this kind is made, the fact that provision has not been made for the desired expenditure in the estimates should be prominently set forth, as well as the particular reasons why it is, nevertheless, considered indispensably necessary, that the outlay should be immediately incurred, and should not be postponed to the next financial year. Explanations should also be invariably given why the need for the expenditure was not foreseen in time to obtain sanction for its inclusion in the estimates.

In the absence of such special arguments, the Governor-General in Council will, in future, assume that it is intended that any expenditure proposed should have effect from the beginning of the following financial year and not earlier.

Ordered that a copy of this Resolution be communicated to the several Departments of the Government of India, to the several Local Governments, to the Heads of Departments under the Financial Department, to the Comptroller General, and to the several Accountants General and Deputy Accountants General in independent charge.

RESOLUTION.—The Governor-General in Council observes that at present applications for sanction to fresh expenditure are not unfrequently submitted during the course of the year in which the provisions of the foregoing resolution are neglected. His Excellency in Council accordingly directs that the attention of the several Local Governments and Heads of Departments be called to the provisions of the Resolution of 31st July 1873, and they be requested to state distinctly in all future applications for sanction to expenditure whether provision for the proposed charge has or has not been made in the Budget Estimate of the year, and if not, whether it can be met from savings in the existing grants.

ORDERED that the foregoing Resolution be communicated to the several Departments of the Government of India, to the several Local Governments and Administrations, to the Heads of Departments under the Department of Finance and Commerce, to the Comptroller and Auditor General, and to the Accountants General and Comptrollers for information and guidance.

Ordered also that a copy of the Resolution be published in the *Gazette of India* for general information.

Chief Clerk's Office, the 15th day of January 1884.

POSTAL NOTICES.

REPY post-cards, both inland and foreign, will be available for sale to the public from the 1st February 1884.

2. A reply post-card consists of a double card folded in the centre, one portion to be used by the original sender, and the other, marked "Reply," to be detached by the original addressee and used for reply. Each

portion will bear impressed upon it an Indian postage stamp of the same value as the present single post-card. Thus the reply post-card for inland use will bear two stamps of the value of $\frac{1}{2}$ anna each, and the reply post-card for foreign use will bear two stamps of the value of $\frac{1}{4}$ anna each. Such cards will be delivered free of charge at their first address, and the portion for reply, when detached and posted will be entitled equally to free transmission to India.

3. Purchasers of reply post-cards are recommended to write the required address on both portions of the double card, as this will tend to prevent misuse of the reply portion.

4. The inland reply card is intended of course for inland use alone; and the foreign reply card can be employed only for correspondence with the Union Countries named in the attached list.

5. The cost of each inland reply post-card will be $\frac{1}{2}$ anna: the cost of each foreign reply post-card will be 3 annas.

BENGAL CIVIL FUND.

At a Meeting of the Subscribers to the Bengal Civil Fund held at the Town Hall, Calcutta, on Monday, the 28th January, at 10 A.M.

PRESENT:—H. A. Cockerell, Esq., C.S.I.; the Hon'ble Mr. Justice Tottenham; the Hon'ble J. W. Quinton; the Hon'ble Mr. Justice Field; the Hon'ble H. Boverley; D. R. Lyall, Esq.; the Hon'ble Mr. Justice O'Kinealy; J. Westland, Esq.; E. V. Westmacott, Esq.; W. H. Grimley, Esq.; J. G. Charles, Esq.; J. Scobell Armstrong, Esq.; H. J. S. Cotton, Esq.; A. Forbes, Esq.; C. A. Wilkins, Esq.; the Hon'ble C. P. L. Macaulay; C. E. Buckland, Esq.; T. W. Holderness, Esq.; H. M. Kisch, Esq.; W. D. Blyth, Esq.; C. S. Bayley, Esq.; O. T. Barrow, Esq.; H. F. T. Maguire, Esq.

The Hon'ble J. W. Quinton in the Chair.

The Managers presented the following report for the half-year ending on the 31st December 1883:—

REPORT.

1. The Managers submit the proceedings for the past half-year for the consideration and sanction of the Meeting.

2. Subject to the approval of the Subscribers, they have admitted to the benefits of the Fund the following families:—

The widow of the late Mr. W. Oldham, Annuitant of 1877, who died on the 2nd			
Mrs. Oldham	£225
October 1883. Mr. Oldham on retirement secured three-fourths benefits only.			
The widow of the late Mr. G. L. Martin, Annuitant of 1861, who died on the 5th October 1883.			
Mrs. Martin	£200
The widow of the late Mr. Elliot Colvin, who died at Saharanpur on the 3rd November 1883.			
Mrs. Colvin	£300

Under Article V of the Rules Mr. J. J. Livesay has incurred the penalty of the exclusion of his son from the benefits of the Fund by failure to report his birth within the prescribed six months. Mr. Livesay states that the omission was the result of oversight. The admission of the child to Fund benefits is dependent upon the decision of a General Meeting of Subscribers, and the Managers submit the case accordingly. They recommend that the child be admitted on payment of the minimum fine of Rs. 100, as required by the Rules. Subscriptions have been deducted from Mr. Livesay's pay bills since the birth of the child.

Mr. A. H. Benton has applied for the remission of the fine of Rs. 50 incurred under Article V of the Rules for failure to report the birth of his son within the prescribed time. The child was born on the 17th September 1883. Mr. Benton states that he was informed by telegram in London on the 18th September of the birth of a son, but the telegram did not state the date of birth. He also received a letter on the following day, shortly before he embarked for India, but the letter did not mention the date of birth. He sailed for Bombay on the 19th September, arrived at midnight on the 17th October, and travelled to Delhi, whence he reported the birth on the 21st October. Mr. Benton states that he ascertained the date of the birth of his son from a "blurred stamp mark on the cover of the telegram."

Mr. Benton urges that he is not liable to the penalty on the following grounds:—

That he was travelling when he received the intimation and continued travelling until the day he reported.

That he was travelling by the mail steamer which would have carried the report if it had been made in London.

That, as a matter of fact, the report reached the Fund Office three weeks earlier than it would have done had he remained in England and reported thence by letter within the month.

The practice of the Fund Office is to accept the date of the letter reporting the birth of a child and not that of its receipt in the office. If Mr. Benton had reported the birth of his child by letter as soon as he ascertained the date of birth, he would have been within the

prescribed time. It was also within Mr. Benton's power while in England to report the fact of birth, leaving the exact date to be reported subsequently. The case is submitted to the Meeting for decision at the request of Mr. Benton.

Mr. A. M. Markham has incurred the penalty prescribed in Article XXXVII of the Rules by neglect, for more than one year, to pay the necessary subscriptions to the Fund on his furlough allowance. Mr. Markham states that he was under the impression that these subscriptions were always allowed to remain in abeyance during absence on furlough and were adjusted upon return. As Mr. Markham has now paid all arrears of subscription together with 8 per cent. interest as required by the Rules, the Managers recommend his case to the favourable consideration of the Meeting.

Mr. D. B. Allen has incurred the penalty prescribed in Article XXXVII of the Rules by neglect, for more than one year, to pay the necessary subscriptions to the Fund on his furlough allowance. Mr. Allen states that he had left funds in India for the payment of these subscriptions. As all arrears of subscription have now been paid together with interest at 8 per cent. as required by the Rules, the Managers recommend Mr. Allen's case to the favourable consideration of the Meeting.

Mr. G. Hughes has incurred the penalty prescribed in Article XXXVII of the Rules by neglect, for more than one year, to pay the necessary subscriptions to the Fund on his furlough allowance. Mr. Hughes states that his neglect to pay was due to imperfect knowledge of the Rules and ill-health. As all arrears of subscription have now been paid together with interest at 8 per cent., the Managers recommend Mr. Hughes' case to the favourable consideration of the Meeting.

Mr. J. D. Gael has incurred the penalty prescribed in Article XXXVII of the Rules by neglect for more than one year to pay his subscriptions to the Fund on his annuity. Mr. Gael states that he was under the impression that he would receive an intimation from the Fund Office stating the amount of subscriptions due. Not having received this intimation, he made enquiries from the Agents in London, who were unable to state the amount. Immediately on receipt of a letter from the Fund Office informing him that he had incurred a penalty he made the payment to the Agents, hoping thus to repair the delay. As all arrears of subscription, together with 8 per cent. interest, have now been paid, the Managers recommend Mr. Gael's case to the favourable consideration of the Meeting.

Mr. J. Wetherill, Head Assistant, who has been employed for more than thirty years in the Civil Fund Office, has applied for a good service pension of Rs. 150 per mensem, payable through the Agents of the Fund in London at the exchange of 2 shillings to the rupee.

The establishment of the Fund Office have never been promised or led to expect the privilege of pension, but pensions have been granted to Mr. Edmonds and Babu Tinkauri Ray, employés in the office. If Mr. Wetherill were in the service of Government he would be entitled to receive a pension equivalent to half his salary of Rs. 300, on account of his service of over 25 years in the Civil Fund Office. The Managers recommend the grant to him of a pension of Rs. 150 per mensem at the current rate of exchange.

The votes of the Subscribers on the resolutions passed at the last General Meeting for the amendment of Article XXIX of the Rules have been scrutinised with the following result:—

For.	Against.
88	Nil.

The Managers will propose:—

That the Subscribers consider that the Secretary of State should be asked on the grounds set forth in the Managers' minute dated the 12th September 1883 and already circulated to all Subscribers to grant in addition to the remission of annuitants' subscriptions a further pension of £30 a year to each widow, present and future, and that in accordance with clause 6 of the Act of Parliament, 45 and 46 Vic. Cap. 45, they authorize the Managers to transfer the Fund at once if the Secretary of State consents to their proposal.

The following letter has been received from Subscribers in England with reference to the Circular No. 583 of the 12th September 1883 on the subject of the transfer of the Fund to the Secretary of State:—

TREASURER'S HOUSE, GUY'S HOSPITAL,

London, the 28th December 1883.

To C. S. BAYLEY, Esq.,

Secretary to the Bengal Civil Fund.

SIR,

WITH reference to the circular from the the Managers of the Civil Fund, dated 12th September 1883, we have the honour to inform you that a meeting of Subscribers to the Fund was held on the 18th instant at Willis' Rooms, King Street, St. James', London, at which the Subscribers named in the margin were present.

2. Sir E. C. Bayley having been voted to the chair, after some discussion, the following resolution was proposed by J. Scarlett Campbell, Esq., seconded by R. B. Chapman, Esq., and carried by a large majority, viz. :—

“That this meeting places confidence in the Managers of the Bengal Civil Fund, and accepts their views as set forth in their circular of the 12th September 1883, and would decline to surrender the management of the Bengal Civil Fund to the Secretary of State, unless the Secretary of State unreservedly accepts the terms suggested by the Managers in their circular under acknowledgment.”

3. We are directed to add that while the majority were actuated by a wish to determine a serious and painful controversy by any reasonable compromise, a strong feeling prevailed that the terms proposed by the Managers are the least favourable on which the service ought to surrender the management of the Fund, and that they do not fully represent the conditions which the service might justly require in exchange for the surrender of the Fund, while they omit any reference to their claims on the generosity of the Secretary of State to place them on a more equal footing with the Subscribers to the Civil Funds of Madras and Bombay.

4. We are also to suggest, for the consideration of the Managers, whether supposing the Secretary of State were to accede to the terms proposed by the Managers, it might be expedient to provide a special tribunal for the settlement of such cases as require settlement from time to time under the rules of the Fund, and which are now decided by the Managers or by the votes of the service. Such a tribunal was provided in the surrender of the Bengal Military Fund, and is composed partly of officials attached to the East India Office and partly of Subscribers to the Fund itself.

We are, SIR,

Your most obedient servants,

BENGAL CIVIL FUND OFFICE ;
The 28th January 1883.

CHAS. S. BAYLEY,
Secretary and Accountant.

For convenience of discussion it was agreed that the first business taken by the Meeting should be the consideration of the Resolution proposed by the Managers regarding the transfer of the Civil Fund to the Government.

Mr. Cockerell moved -

"That the subscribers consider that the Secretary of State should be asked on the grounds set forth in the Managers' minute, dated the 12th September 1883, and already circulated to all subscribers, to grant, in addition to the remission of annuitants' subscriptions, a further pension of £30 a year to each widow, present and future, and that in accordance with clause 6 of the Act of Parliament, 45 and 46 Vic., Cap. 45, they authorize the Managers to transfer the Fund at once if the Secretary of State consents to their proposal."

Mr. Westland in seconding the motion observed that the subject of the transfer of the Fund to Government was one which had been for a long time before subscribers, and on which much discussion had taken place both verbally and in writing. It was therefore unnecessary to treat it now in detail, but *Mr. Westland* would be happy to give any information in his power which any subscriber might wish to have. The present position of affairs was briefly this. The Secretary of State had offered a settlement of the questions between himself and the three Civil Funds on the following basis. In the first place, he accepted the *status quo* of the 1st April 1875, that is, both he and the Funds would start from the balances shown on the books of the Funds as existing on the 1st April 1875; in the second place he laid down certain principles as those on which the Funds should from and after that date be managed. These terms, if accepted, settled all matters in dispute, but the Secretary of State further offered to the subscribers to the several Funds the alternative of continuing to manage the Funds themselves, or of making them over to the Government. The subscribers to the Bombay Civil Fund had transferred their Fund to the Government on certain terms which he would explain subsequently, and the subscribers to the Madras Fund were considering the terms on which a transfer should be made. In the case of the Bengal Fund, the Managers had had much discussion with the Secretary of State, in the course of which they had, without going into details of the matters affecting the settlement of the Bengal Fund in particular, urged generally on the Government the special claims of their Fund for favourable consideration. The Secretary of State had admitted that the subscribers to the Bengal Civil Fund had paid more to the State and had received smaller benefits from it than the subscribers to the Madras and Bombay Funds, and the Managers had therefore claimed that they should be treated with at least as much consideration as the subscribers to the Bombay Fund and receive equally favourable terms. To this claim the Secretary of State had constantly demurred. He had taken as his basis an arbitrary standpoint—the position of the three Funds on the 1st April 1875, and the practical effect of his so doing was to concede to the Madras and Bombay Funds all they wanted and to give the Bengal Fund nothing at all. Had the starting-point been taken ten years earlier the position of things would, as regards the Bengal Civil Fund, have been practically what it now is, while that of the other Funds would have been very different. Owing to the method of distributing expenditure adopted by the Trustees of those Funds, very large balances had been accumulated to their credit in the intervening ten years, at the expense of the Government, while in the Bengal Fund the Managers had scrupulously observed almost the same restrictions for which the Secretary of State now contended, and had thus for these ten years a practically clear account with the Government. The Bengal subscribers could not, absolutely speaking, make claim against the Secretary of State that he should give them better terms as the starting-point of the settlement than were shown in their own statements of account, but they certainly could claim that, the starting-point having been so taken as to give them absolutely no advantage in respect of the transactions that occurred before it, while it abandoned to the Madras and the Bombay subscribers almost all that the Secretary of State on his own principles could claim from them, they should in respect of the settlement of matters subsequent to that starting-point receive very favourable consideration. These were the general considerations which the Managers had been pressing upon the Secretary of State, and though he had made some concessions in the correspondence, yet he practically declined discussion, and merely refused to admit the Bengal Fund to the same favourable terms as the others, being apparently full of the notion that the Bengal Fund, like the others, had already received great condonation in the acceptance of its accounts up till 1875. The Secretary of State therefore had refused to discuss the matter further, except as it referred to the Bengal Fund taken by itself, and it

was from this point of view that the Managers had now taken up the question and had laid their views at length before the service.

The Secretary of State and the Managers of the Bengal Fund were almost at one as to the principles on which the Fund should be managed, so that accepting the year 1875 as a starting-point and adjusting the transactions of the Fund forward from that date, there was not very much difference between the present balances as the Secretary of State would claim them and the present balances as the Managers would claim them. A settlement upon these points would determine all matters actually in controversy, and if no new question had been raised no difficulty would probably be found in coming to terms.

But besides these matters which had to be settled, the Secretary of State had opened a new one, which admittedly entirely depended upon the consent of subscribers, in his offer to take over the Fund with all its assets and liabilities. Now for the discussion of this new question the Managers were willing to take as a starting point the full acceptance by the Service of the Secretary of State's claims in respect of the preliminary and necessary matters. They reserved their right to fall back on their own opinion if necessary, and protest against the notion that the settlement and consequent adjustment can be forced upon them otherwise than by their own consent or by the action of a Court of law; but for present purposes they accepted the views of the Secretary of State and the adjustment of balances consequent upon them.

This left the subscribers the option of continuing to manage the Fund as their own on the accepted principles, or of handing it over to the Secretary of State; only it was obvious that to persuade them to the latter course, the Secretary of State must consent to the admission of benefits at least equal to those they could expect from the former course. The Managers had therefore carefully examined what standard of benefits they could calculate on if the Fund, adjusted in accordance with the Secretary of State's claims, remained under direct management; and the conclusion they had come to was that they were in a position to continue to the families of subscribers and to annuitants all benefits which had been given up to the present time. There were some slight differences between the figures at which Mr. Westland, after an investigation of the subject, had arrived regarding the assets and liabilities of the Fund, and those which had been adopted on General Hannington's calculations by the Secretary of State. The calculation of the position of the Fund depended mostly on facts but partly also on matters which involved opinion, and this accounted for such differences as did exist. General Hannington had made a great number of very prudent calculations, which as a matter of the safe management of the Fund would be quite admissible, but which, when applied to the question of its transfer to the Government, were quite irrelevant. Besides this, it was found by actual calculation that for certain reasons, the adjusted Fund was in a much better position in 1880 than General Hannington found it to be in 1875. In considering the question whether it was expedient to make the transfer it must be borne in mind that, other things being equal, it was to the interest of the subscribers to keep the management of the Fund in their own hands. It was more satisfactory that all cases that might arise should be decided by the subscribers, and the families of subscribers were likely to prefer consideration at the hands of subscribers to consideration at those of the Government. On the other hand, it was to the interest of the Secretary of State to get the Funds under his control. In the case of the Madras and Bombay Funds the Government had lost more lakhs of rupees than could now be calculated, and to a small extent loss had been incurred in dealing with the Bengal Fund, to which many years ago concessions had been made, which although made deliberately at the time, certainly shewed that the Secretary of State had not in those days fully understood the obligations he was accepting. As it was, the Secretary of State was under an obligation which was legally binding to pay 8 per cent. on a large portion of the Fund's accumulations, and this was an obligation of which it would well pay the State to be rid as experience had shewn the very great difficulty of properly limiting it. For this reason, and from the favorable terms which the subscribers to the Bombay Fund had received, the subscribers to the Bengal Fund had reason to anticipate that they would receive something as the price of the transfer of the Fund. In that case the subscribers had asked for an addition of £10 to the pension which the Fund was calculated to be able to afford to each widow, and this concession the Secretary of State had made without demur, a special clause being introduced into the Act of Parliament authorizing the transfer to enable him to do so. The clause ran as follows:—"Provided that nothing in this Act contained shall be held to preclude

the Secretary of State for India in Council from assigning to the incumbents on, and subscribers to, the said Fund, or to any such widow or child as aforesaid, any benefits in addition to those secured to them by this Act, if on considering the assets and liabilities of the said Fund the Secretary of State for India in Council shall deem it reasonable so to do." The proposal of the Managers was that the subscribers should ask only for the same concession as the Bombay Fund had in this respect received. But as the Service consider themselves pledged to remit the remaining part of annuitants' subscriptions, the Managers proposed to make a slight change in the form of the concession. It had been calculated that the remission of the subscriptions still levied from annuitants was equivalent to a pension of £10 to each widow, present and future, and this remission *plus* an additional pension of £30 to each widow would therefore be equivalent to the terms granted to the Bombay Fund. From the Managers' point of view this addition to their benefits was practically a discounting of the extensions they might reasonably hope to obtain if the Fund remained under its present management, and they had reason to believe that from the Secretary of State's point of view it would be a price he would be willing to pay for a final settlement of the whole matter. It was true that in the last despatch received—that dated the 12th July 1883—the Secretary of State had written in a very peremptory manner requesting that the Managers might be informed that His Lordship must decline to entertain any further applications for better terms. This broke off negotiations with the Managers upon the basis upon which the discussions then were proceeding, namely, general claims founded on the comparative treatment of all the Funds; but it was in the Managers' opinion quite open to the subscribers to state in the form of definite proposals, based upon definite considerations arising out of the condition of the Bengal Fund itself, the terms on which they would be prepared to transfer the Fund. In fact they had been specially invited to do so, for in paragraph 11 of his penultimate despatch No. 12, dated the 9th November 1882, the Secretary of State, while expressing his opinion that the offer previously made by him to take over the Fund should have been submitted to the subscribers for their consideration, added—"If the subscribers are dissatisfied with the terms, it is open to them to state the grounds on which they claim a larger surplus than that which is brought out in General Hannington's valuation." It could not therefore be expected that the Secretary of State should now say that he would not listen to further discussion of the question thus arising.

The Managers were now at last in a position to submit the matter definitely for the decision of the subscribers, and they hoped to get definite instructions to place the matter distinctly before the Secretary of State. The general sense of the subscribers had been taken on the subject, and so far as replies had been received, it appeared that subscribers both active and retired were prepared to support the view taken by the Managers, and the question of the surrender of the Fund would now, if the meeting accepted the Managers' proposal, be submitted, as required by the Act of Parliament, to the votes of the Service and annuitants. It should be observed that the subscribers had one object to gain in transferring the Fund to the Government, namely, that the Fund having ceased to take in new subscribers was in one sense in a moribund condition, and would, some 25 years hence, be left with no one to manage it.

Mr. Macaulay enquired whether there would be any objection to the addition to the motion of a clause in the sense of paragraph 4 of the letter received from the annuitants in England, providing for a special tribunal for the settlement of such cases as require settlement from time to time under the rules of the Fund. *Mr. Macaulay* did not wish to bring this forward as an amendment to the Managers' proposal, but he would be glad if the Managers thought fit to adopt the suggestion.

Mr. Westland said that a demand for a concession of this kind had been made in the case of the Bombay Fund, but the Government had been unwilling to sanction the constitution of a formally elected body to represent the Service in the matter of Civil Funds. But a committee had with the permission of Government been formed to decide certain cases of advances to subscribers going on leave, &c., which did not occur under the rules of the Bengal Civil Fund. The Bombay Civil Fund Transfer Act, clause 4, specially bound the Secretary of State to decide all cases now decided by Managers or subscribers in accordance with precedent. As a matter of fact, the Secretary of State would not be likely to take too strict a view. A case had actually occurred in Bombay in which an annuitant who had ceased to subscribe being attracted by the favourable terms offered after the transfer, had desired to subscribe again, and had been permitted to do so. There could

be little doubt that the Managers of the Fund would not have permitted this. Mr. Westland had no objection to the addition of such a clause as that proposed by Mr. Macaulay, but he suggested that it should be put as a separate substantive resolution.

The Chairman then put the Managers' proposal to the meeting, and it was carried unanimously.

Mr. Macaulay proposed—

"That the subscribers are disposed to view favourably the proposal of the subscribers in England regarding the provision of a special tribunal for the disposal of cases requiring settlement under the rules of the Fund, and request that the Managers will give due consideration to it in making their representation to the Secretary of State."

He said that he understood that this matter had not yet been officially considered by the Managers. It would be observed, however, that his proposal would not in any way bind them. At the same time he considered it desirable to elicit an expression of the views of the Service at large upon the point. For himself he entertained an indifferent opinion of official generosity in dealing with questions of this nature, and he would be glad to see some such arrangement made as was proposed by the home subscribers.

The motion was seconded by Mr. Justice O'Kinealy and carried. Mr. Cotton dissenting.

Some discussion then arose as to the effect of the proviso in Rule XVI, requiring all votes on new general questions or questions involving any essential addition to or alterations in, the Rules and principles of the Fund to be given within two months after the date of issuing the notice of the decision of a General Meeting, which would be to exclude the votes of annuitants in England whose answers could not be received within two months. On the suggestion of Mr. Justice Field it was ultimately decided that Messrs. Coutts & Co. should be requested to issue the notices in London on a date to be fixed by the Managers, and that answers should be sent in to Calcutta within two months, notices being issued in India on the same date as in London.

Proposed by Mr. Lyall and seconded by Mr. Macaulay—

That the Managers' proceedings in admitting the families of the late Messrs. W. Oldham, G. L. Martin, and Elliot Colvin to the benefits of the Fund be confirmed.

FROM

THE AUDITORS OF THE ACCOUNTS OF THE COMMISSIONERS FOR MAKING
IMPROVEMENTS IN THE PORT OF CALCUTTA,

To
THE VICE-CHAIRMAN OF THE COMMISSIONERS FOR MAKING IMPROVEMENTS

IN THE PORT OF CALCUTTA.

Dated Calcutta, the 16th January 1884.

SIR,

WE have the honour to inform you that the cash and store accounts maintained in your office for the half year ending 30th September 1883 have been examined and audited under our supervision and by our direction, and that, subject to such objections as have been taken verbally and in writing by Mr. Larpent, we are able to certify that the accounts have been found correct.

2. We append a statement marked as Appendix A, showing the transactions of the Revenue and Capital Accounts during the half year in question, and we certify that the statement of your financial portion contained in Appendix B represents a true and accurate description of assets and liabilities of the Port Trust on the 30th September 1883, as they have been recorded on your books.

3. We omit the customary comparison of the actual transactions during the half year with the budget estimates as sanctioned by the Government, partly because such a comparison is periodically laid before the Commissioners together with the monthly accounts, and partly because any comparison we could make in respect to anticipated excesses or deficiencies would not be of any great value in view of the approaching termination of the year, after which the comparison can be made effectually.

4. We furthermore certify that the Government and other securities retained in the statement of assets as in the possession of the Trust are actually in existence, inasmuch as one of us has verified the ledger balances of these securities with the receipts granted for them by the Bank of Bengal, in whose custody they are retained.

The nominal value of these securities aggregate Rs. 7,75,100, and are thus detailed :-
